---

OBJECTIVE

To pursue a Python/Django Backend Developer role where I can apply my experience in Django, DRF, REST APIs, PostgreSQL, authentication, RBAC/MBAC, multi-tenant systems, and AI integrations to build secure and scalable applications while continuously growing as a backend engineer.

WORK EXPERIENCE

1+ Years

Python/Django Developer | SoftCompuTech **Jun 2025 - Present**

- Architected and delivered multi-tenant ERP solutions using Django and DRF, covering core business workflows across e-commerce and hospitality domains.
- Engineered a custom MBAC system enabling granular, module-level access control across enterprise roles, reducing unauthorized access risk.
- Drove backend optimization through advanced SQL tuning, wrote unit tests to ensure code reliability, and maintained clean codebases in a Git-based Agile workflow.

PROJECTS

eStudy Academy | Django, DRF, PostgreSQL, Redis, Django Channels

- Developed the backend for a comprehensive e-learning platform supporting students, teachers, courses, assignments, quizzes, enrollments, and certificates.
- Built complete enrollment and payment workflows including cart, invoice generation, payment verification, refunds, and progress tracking with protected content access.
- Developed real-time quiz functionality using Django Channels and Redis — timed quizzes, WebSocket monitoring, auto-grading, and notifications.
- Implemented JWT authentication, RBAC for Student/Teacher/Admin roles, virtual classroom with Google Meet, attendance tracking, and audit logging.

Live: https://estudy.academy

School Management System | Django, DRF, PostgreSQL, Celery, Redis, Django Channels

- Developed a multi-school and branch management platform with role-based access for administrators, teachers, staff, students, and guardians.
- Built REST APIs for academics, exams, subjects, attendance, timetables, HR, inventory, and notifications with school/branch-level access control.
- Implemented a complete examination system including scheduling, papers, student sessions, grading, results, and rankings.
- Developed real-time quiz functionality using Django Channels and Redis, and integrated AI-powered quiz generation via OpenAI and Celery with Google Meet class support.

Live: https://school-fronend.vercel.app/

KSA Medical Billing Platform | DRF, PostgreSQL, Celery, Redis, AWS

- Developed a Saudi Arabia-focused medical billing platform covering patients, providers, insurance, claims, billing, pharmacy, reporting, and notifications.
- Implemented NPHIES integration using FHIR R4 and OAuth2 for eligibility checks, claim submission, and remittance workflows via Celery.
- Implemented JWT auth, RBAC, audit logging, and AWS S3 for Saudi-region data residency compliance.

Live: https://ksa-billing-frontend-one.vercel.app/

Multi-Tenant E-Commerce ERP | Django, DRF, PostgreSQL

- Architected a Django multi-tenant ERP with RBAC and full store-data isolation; built end-to-end flows for browsing, cart, checkout, and order tracking with tenant-scoped DRF APIs.
- Implemented JWT auth, store-level permission guards, and optimized PostgreSQL queries; deployed via CI/CD pipeline ensuring reliable releases.

Live: https://onlinesastore.com

Multi-Tenant Hotel Management ERP | Django, DRF, PostgreSQL

- Built a Django multi-tenant Hotel ERP with a custom MBAC engine enforcing role-level access at the module level (Rooms, Bookings, Restaurant, Staff, Reports) across all tenants.
- Delivered fully documented DRF APIs for room inventory, reservations, check-in/out, and restaurant management with audit-trail support.

SKILLS

Languages:	Python, SQL, HTML, CSS, JavaScript
Frameworks:	Django, Django REST Framework (DRF), Flask
Databases:	PostgreSQL, Microsoft SQL Server (SSMS)
Tools:	Git, Docker, Celery, Redis, AWS (S3), Postman, Swagger/OpenAPI, CI/CD
Security:	RBAC, MBAC, Multi-Tenancy, JWT Auth, AES-256-GCM
Real-Time:	Django Channels, WebSockets, ASGI
AI / ML:	OpenAI API (GPT-4o-mini), RAG, Function Calling, VGG19 CNN

EDUCATION

Bachelor in Computer Science **2021 - 2025**

- The Islamia University of Bahawalpur
- Intermediate (Pre Engineering) **2019 - 2021**

ADDITIONAL INFORMATION

Languages:

- English, Urdu, Punjabi
